The prestigious international One Show Awards—the ‘Oscars’ of advertising, is headed back to Central Florida with a special screening and gallery exhibition of the year’s best in creative advertising from across the globe. The Traveling One Show features a gallery showing of winning ads, design, interactive and branded entertainment work from the One Show Awards held every May in New York City. All entry work is judged anonymously and harshly by the most accomplished international creatives—where typically only 300 awards are given from over 13k entries. A tremendous opportunity to see the world’s best work at our doorstep.
